2012 OVERSEAS STUDY TRIPS AND SHORT COURSES, GREEN JOBS AND GREEN CAREERS January, July and August 2012

New for 2012 GEI Academic and Masters courses

We can now offer a range of academic courses at all levels from CPD (Continous Professional Development) to Undergraduate and Post Doctoral Research and Study.

Our new ground breaking **Masters Courses** start in January 2012 and will be taught in the state of the art Science Museum in Birmingham with Birmingham City University and near Glastonbury, with other universities in beautiful surroundings, and in our learning centre in Theale using the latest state of the art equipment and techniques.

We also offer Professional Practitioner Qualifications, Professional accreditation, Open Book Examinations GE (Green Economist), and (M.GEI) which can be taken at our Annual Oxford University Conference in July 2012 or throughout the year, based on our Handbook: Green Economics Practitioner's Guide Book.

All our students at all levels are encouraged to speak at our events and to write for our publications and to publish in our prestigious books and journals.

Overseas Study Tours and Green Jobs and Green Careers

Following our Youth in Action Green Jobs and Green Careers course we are offering short 1 or 2 week courses. We are also offering Overseas Study Tours in Oxford, London and Glastonbury during Chinese New Year 2012, January 2012, and July and August 2012 during the Olympic Games.

Internships

We are the leading internship, work placement, field trip and work experience provider globally in Green Economics, Green Jobs and Green Careers, with over 200 students having gone through the programme already and matriculating for a life time of career support which we offer.

Memberships for 2012

Green Economics Institute

THE GLOBAL LEADERS IN GREEN ECONOMICS

Reclaiming economics for all people everywhere, nature, other species, the planet and its systems

Award winning! The leading innovative training in green economics covering progressive economics, climate change, species and biodiversity, and poverty prevention.

Advisors and participants – governments, businesses, NGOs, campaigners, IPCC, Kyoto, COP15, COP16, COP17 ECI, UNFCC, ILO, activities at Mansfield College, Oxford University.

We are an international institute for green economics professionals, green economics, green jobs and green careers. We have the largest global green experts network that provides training, conferences, events, speakers and lecturers. We also offer professional qualifications and awards. Our work ranges from the prevention of climate change and poverty, reform of economics to women's unequal pay and opportunities.

Our aims and philosophy

- * Reforming mainstream and neo classical economics to provide equal access for all, whilst providing academic rigour of the highest standards in terms of new thinking in philosophy, methodology and ontology for economics. *"I believe the Green Economics Institute is leading change by example."* **Tony Lawson Cambridge University economics tutor and writer**
- * Founding an inclusive and progressive economics discipline based equally on environmental and social justice, and on diversity including learning from natural science, and other sources. *"The Green Economics Institute have been largely successful in their core aims already."* **Professor Jack Reardon Economics USA**

The four pillars of the Green Economics Institute are:
Policy-making, Civil society, Business, Academic

GREEN ECONOMICS INSTITUTE

PREVENTING POVERTY, RUNAWAY CLIMATE CHANGE AND SPECIES LOSS · REFORMING ECONOMICS: WORKING FOR ENVIRONMENTAL AND SOCIAL JUSTICE

About us: an international network

We have an international and inclusive network which consists of 6500 experts, advisors, professors, government officials (including MPs and MEPs), lecturers, speakers, writers, top scientists, innovators, activists, change makers and Nobel prize winners in over 47 countries.

Clients and supporters

MEPs, MPs, governments, professors, ministers, NGOs, UN, OECD, ILO, directors, campaigners and Princes, policy makers and businesses.

Our range of activities

We cover, economics, business, finance, investment, accounting, green procurement, micro and macro economics, and how to recession proof your business or your activities. We show you how to manage biodiversity loss, climate change costs, social and environmental issues, gender issues and poverty prevention, and how this affects us all globally and the links between them.

Education, training courses and briefings

We offer award winning courses, lecturing, teaching and speeches from our international and global team of specialist trainers and lecturers from all kinds of backgrounds, cultures and languages. All our courses are gender balanced, inclusive and participatory. We also offer short briefing papers and reports, as well as bespoke courses, briefings and workshops to meet your requirements. .

Our training takes place all over the world with courses tailored for clients ranging from governments and business to individuals, with specialist lecturers for each subject. We also provide illustrated talks and a comprehensive quality training manual and case studies.

"The day was so full of stimulating ideas and new horizons and our group were so vibrant, committed and involved – and had a wide range of ages and backgrounds."

We run in-house briefing sessions for your staff, or your clients, and also for students and for those who want to understand global developments in green issues and in the recession. We also participate in COP, Kyoto Conferences with our own delegation. We offer

Research, publishing and journals

Our lively research department, in green economics and the green built environment, has led to the publishing of the first green academic journal, **The International Journal of Green Economics** now in its fifth volume, featuring policy articles from NGOs, campaigners, governments, business and opinion makers.

Our range of published books includes the Gower and Ashgate Academic Press Series – **The Economics of Abundance and the Plan for the Planet.**

The Green Economics Institute's own series of beautiful books includes: **The Green Economics Reader, The Handbook of Green Economics: A Practitioner's Guide, Women's Increasing Economic Power, Green Economics and Climate Change, Green Economics and Citizens Income, Green Economics: Voices of Africa and The Green Built Environment.**

Events

Throughout the year we run a series of events, including our Green Economics Institute Conference, that include working trips, lectures and workshops. For more information please see our calendar overleaf, visit our website or email greeneconomicsevents@yahoo.co.uk
