KIC Sweden

Christian Democratic International Center

KIC Sweden is a Party-Affiliated Organisation (PAO) working with democracy development and promotion of civil and political rights in repressive states and struggling democracies in Africa, Eastern Europe and Latin America.

KIC is a non-profit organisation with ideological ties to the Swedish Christian Democratic party. KIC approaches cooperation differently depending on the level of democratic development in a country; for example, in Africa our main focus is multi-party support, whereas in Eastern Europe our cooperation is usually built on the foundation of fraternal support to local Christian Democratic parties or movements.

Youth, women and media

Our thematic focus areas are youth and women's participation in politics. We are also increasingly focusing on free and independent media as a tool for democracy. Each year, KIC publishes reports on topics related to our field of work; the most recent being an anthology on the strive for democracy in Belarus.

KIC is a member of ENOP and cooperates with the Swedish Christian Democrats on development issues within the EPP.
